

**Cutting-edge  
healthcare  
technology**

“Alert Tech’s focus is the **design** and **installation** of **simple** and **fully compatible tools** that make facility management a **breeze.**”

- **Who we are**

Alert Tech is a leading provider of installation and maintenance services for Nurse Call, Access Control and CCTV. We are one of the largest companies of our kind in Australia with offices in Melbourne, Adelaide and Sydney and a service base covering most of Australia.

- **Why we’re better**

We don’t sell our own proprietary product. We offer systems from a wide array of the best manufacturers, and then tailor a solution to meet your needs. This arrangement drives us to deliver the highest standard of service, as our customers are always free to choose another service provider should we fail to meet their expectations.

- **Australian and proud**

Alert Tech is solely Australian-owned and supports the use of Australian products.

- **The Alert Tech approach**

At Alert Tech our customers are integral to everything we do. Our technicians will always look for the best possible outcome for you, financially and practically. We put ourselves in your shoes and ask “what would we want?”

This approach enables us to deliver quality workmanship and the perfect system for you, first time, every time.

## Integration - a messaging platform

Critical messaging within a senior living or aged care facility is a key component to delivering the best possible care.

There is little margin for error - responsible aged care facilities use technology to react quickly and effectively to patient needs.

This is made possible by delivering critical alerts and information to staff on a wide range of wireless devices such as DECT, pagers and advanced smartphones.

Throughout a facility, our integration systems allow all of these different messaging and reporting systems to communicate - delivering messages to the right people, at the right time, on their preferred communication device.

When a duress button is pressed, when a patient monitor triggers an alarm, or when a security door is opened, Alert Tech helps senior living and aged care facilities to take better care of their residents and improve the efficiency of their staff.

### Nurse call

We have access to a wide range of equipment from all of the major brands. No project is too big or too small.

- + Hardwired Nurse Call
- + Wireless Nurse Call
- + Wander Alert
- + Paging
- + DECT
- + Duress Alerts
- + Dementia Alerts

### Access control

We offer the latest innovations including keypad access, wandering resident systems and everything in between. Let us design the perfect Access Control system for you.

- + Keypad Access
- + Proximity Card Access
- + Timed Access
- + Wandering Resident Systems

### CCTV

We supply, install and maintain CCTV systems from a single camera and monitor to highly complex, multi-faceted networks.

- + Exterior Cameras
- + Interior Cameras
- + IP Cameras
- + Monitors
- + Networkable & Non-Networkable DVR's

### 24hr Service

When you partner with Alert Tech you get the confidence of a dedicated service team with stocked service vehicles ready to support you.

Our experienced technicians will assess your situation and recommend the most appropriate course of action.

If we can talk you through a simple fix and help you avoid a call out, then that's what we'll do. If we need to visit onsite, then we'll be there in a flash.

### Installation

When it comes to experience Alert Tech is second-to-none. Whether it's a new installation or the decommission and upgrade of an existing facility, our install team can handle it with ease.

Our skilled and experienced project management team will ensure your expectations are met while following all relevant codes and standards to the letter.
