Wander Alerts

Door Contact Kit

3508, 3503

Will notify when a specific door is opened. Can also work on windows and even cupboards or draws. Choose another 2 cordless devices to program to the pager as required.

iBeam Motion Sensor Kit

3508, 2721

Will alert when someone walks through the PIR sensors invisible beam. Lets you know when someone is exiting an area or moving to an area deemed unsafe for them. Can also notify of out of bed or chair movement.

DoorAlert LT Kit

4000, 4024LT

Place monitor at door, only person wearing a transmitter triggers the alarm when they enter a certain range. Can work with electronic door locks to keep the door locked until the person can be moved away or escorted through the door.

Do you require more than 3 monitoring devices?

If you require support for more than three cordless devices, you can choose between the 2700 6-Channel Monitor or the 3501 ActiveCare 9-Channel Pager, depending on your specific needs.

Do you require more range between devices and pager?

If you feel the range may not be sufficient for your home, you can extend it by using a 2700 6-Channel Monitor in conjunction with a 3501 ActiveCare Pager. This combination can effectively increase the coverage area. For more information, please contact one of our friendly staff members.

Please note: The specified range is based on 'line of sight'. Walls, furniture, and other obstacles may reduce signal strength. Always test the system in your environment before use.

Call Alerts

3508 Pager & Pendant Kit

3508, 2588
